

RFE Back Office

Your guide to updating everything on rohmfeiferentertainment.net

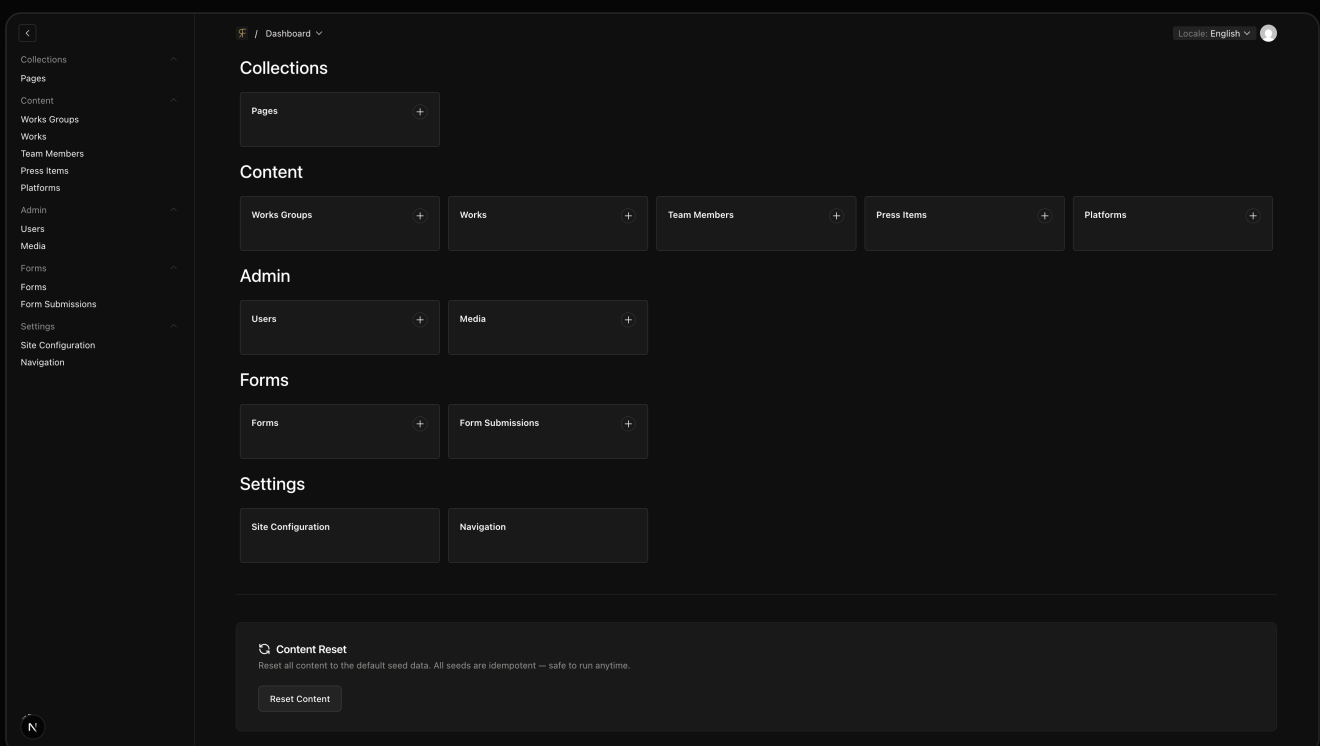

If something breaks or looks weird, don't panic — you can always undo your changes.

[Download PDF version](#)

What is this?

The back office is the private area where you control what appears on the public website. Think of it like a control room behind the scenes — you change things here, and the website updates automatically.

When you log in, you'll see the **Dashboard** — your home base:

The left sidebar is your menu. Everything is organized into groups:

Section	What's in it
Pages	The actual pages of the website (Home, About, Our Work...)
Content	Your works, team bios, press mentions, and platforms
Settings	Brand identity, colors, contact info, navigation links
Admin	User accounts and the image library
Forms	The contact form and any submissions you've received

Table of Contents

The stuff you'll use most:

1. Works — Adding and editing your projects
2. Works Groups — Controlling what shows where
3. Pages — Editing your website pages
4. Team Members — Updating bios and photos
5. Press Items — Adding press coverage
6. Platforms — Managing network/streamer logos

Things you'll touch less often:

7. Site Configuration — Brand, colors, SEO, contact info
8. Navigation — Header menu and footer
9. Media — Your image library
10. Users — Admin accounts
11. Forms & Submissions

Help:

12. Common tasks step by step
13. How to undo a mistake
14. How everything connects

The stuff you'll use most

Works

This is your catalog. Every film, series, and unscripted project lives here. It's probably the section you'll update the most.

Each work you add here can show up on [Our Work](#), [Development](#), and the [Home](#) page — depending on which [Works Group](#) you put it in.

Title	Year	Category	Tags
☐ Darkness Falls	2025	Unscripted	Unscripted
☐ In Not So Loving Memory	2025	Unscripted	Unscripted
☐ Sleeping Angel	2025	Unscripted	Unscripted
☐ If Anything Happens to Me	2026	Unscripted	Unscripted
☐ Call Me Madam	2026	Series	Drama
☐ Southern Gothic	2026	Series	Thriller
☐ Korean Espionage	2026	Series	Thriller
☐ 1% Better	2026	Film	Drama
☐ Flower Girl	2025	Film	Drama
☐ Out for Love	2026	Unscripted	Unscripted
☐ TransElectric	2026	Film	Drama
☐ Justice For Turog	2026	Film	Drama
☐ Sunshine Sisters	2025	Series	Drama
☐ Mookietown	2026	Unscripted	Unscripted
☐ Horseplay	2026	Unscripted	Unscripted
☐ 25 to Life	2026	Film	Drama
☐ Mistletoe and Holly	2026	Film	Drama
☐ A Not So Silent Night	2026	Film	Drama
☐ ICON	2026	Series	Drama

You can see all your projects at a glance — title, year, category (Film / Series / Unscripted), and tags. Use the search bar at the top to find something specific.

Subcategory

Sort Order

69

Lower = first

Here's what each field means:

Field	What to put there
Title	The name of the project (e.g. "Darkness Falls").
Poster	The main image. Click "Choose from existing" to pick one you already uploaded, or upload a new one.
Tags	Pick one or more: Drama, Thriller, True Crime, Unscripted. These show up as labels on the website.
Description	A short description. You can make text bold or <i>italic</i> .
Video URL	If you have a YouTube or Vimeo trailer, paste the link here.

Credits

The screenshot shows a web application interface for managing projects. On the left is a sidebar with navigation links: Collections, Pages, Content, Works Groups, Works, Team Members, Press Items, Platforms, Admin, Users, Media, Forms, Form Submissions, Settings, Site Configuration, and Navigation. The main area is a form for a project titled 'darkness-falls.png'. The form includes fields for Poster (with a thumbnail), Tags (Unscripted), Description (with a text area containing 'When the lights go out, the real story begins.'), Video Url, Credits (with an 'Add Credit' button), and a 'Seo' section with Title, Description, and Keywords. On the right, there are additional settings: Year (2025), Category (Unscripted), Production Stage (a dropdown), Subcategory, and Sort Order (69). A 'Save' button is in the top right corner. At the bottom left, there is a red notification bubble that says '1 Issue'.

This is where you list the people involved — directors, writers, producers, stars.

For each person, you fill in:

- **Name** — their full name
- **Role** — pick from the dropdown (Director, Writer, Executive Producer, Producer, Star, Showrunner, etc.)
- **IMDb link** — optional, paste their IMDb profile URL
- **Note** — optional, a short note like "Academy Award winner"
- **Headline credit** — check this box if you want this person to show up on the project card (the small tile on the website). If unchecked, they only appear when someone clicks into the project detail.

Click **Add Credit** to add more people.

SEO (search engine stuff)

You usually don't need to touch this — it gets filled in automatically. But if you want to control what Google shows:

- **Title** — what appears in the browser tab and Google results
- **Description** — the snippet Google shows under the title
- **Keywords** — words people might search for to find this project

The sidebar (right side)

Field	What it means
Year	The production year.
Category	Film, Series, or Unscripted. Determines which sections of the website it can appear in.
Production Stage	Where this project is in the pipeline: Produced, In Production, Paid Development, etc. Used to sort things on the Development page.
Sort Order	A number that controls the order. Lower numbers come first.
Seen On	Which networks or streamers carry this project. Click to add platforms like Netflix, CBS, Lifetime, etc.

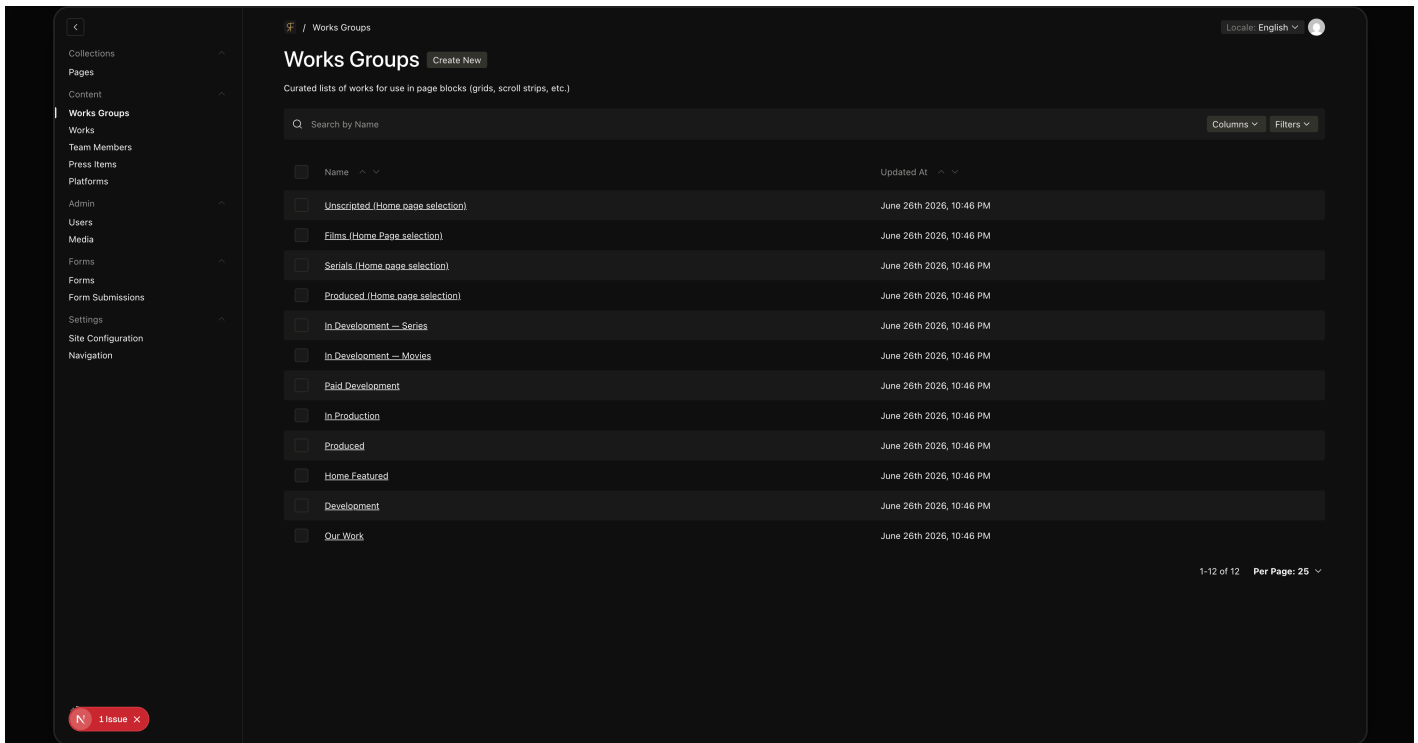

Adding a new work

1. Go to **Content** → **Works**
2. Click **Create New** (top right)
3. Fill in at least the **Title** and **Year**
4. Add a **Poster** image
5. Set the **Category** (Film, Series, or Unscripted) in the sidebar
6. Add credits if you have them
7. Click **Save**

 After saving, the work exists in the system but won't show up on any page yet. You need to add it to a [Works Group](#) — that's how you control where it appears.

Works Groups

Think of these as playlists. A Works Group is just a list of works in a specific order. Each group powers a different section of the website.

For example:

- The "Our Work" group controls what shows on the **Our Work** page
- The "Home Featured" group controls what's highlighted on the **Home** page
- The "In Development — Series" group controls the series tab on the **Development** page

How to add a work to a group

1. Click on the group name (e.g. "Our Work")
2. Scroll down to the **Items** list
3. Click **Add Work**
4. Search for and select the work you want to add
5. **Drag** it up or down to set the order (top = first on the page)
6. Click **Save**

How to remove a work from a group

1. Open the group
2. Find the work in the list
3. Click the **⋮** menu next to it and choose **Remove**

4. Click **Save**

How to reorder works in a group

- 1. Open the group
- 2. Grab the **drag handle** (the lines icon ≡) on the left of any work
- 3. Drag it to the new position
- 4. Click **Save**

Pages

These are the actual pages of your website. Each one corresponds to a URL that people visit.

Editing a page

Click on any page name to open it:

The screenshot shows the CMS interface for editing the 'Home' page. On the left is a sidebar with a navigation menu including Collections, Pages, Content, Works Groups, Works, Team Members, Press Items, Platforms, Admin, Users, Media, Forms, Form Submissions, Settings, Site Configuration, and Navigation. The main area is titled 'Home' and shows the page status as 'Published' with last modified and creation dates of June 26th 2026, 10:46 PM. The page has three tabs at the top: 'Hero', 'Content', and 'SEO', with 'Hero' currently selected. The 'Hero' section includes fields for Title (set to 'Home'), Type (set to 'Cinematic (full-bleed)'), Headline (set to 'There's always more to the story.'), Subtitle (set to 'True Crime / True Story'), and Label (set to 'True Crime / True Story'). There is a media field showing a thumbnail of Kara and Elisabeth Weir. Below this are settings for Image Fit (set to 'Cover') and Image Position (set to 'Center'). A 'Mobile override (optional)' field is also present. On the right, a preview of the page is shown, featuring a large image of Kara and Elisabeth Weir with the text 'THERE'S ALWAYS MORE TO THE STORY.' and 'TRUE CRIME / TRUE STORY'.

Each page has **three tabs** at the top:

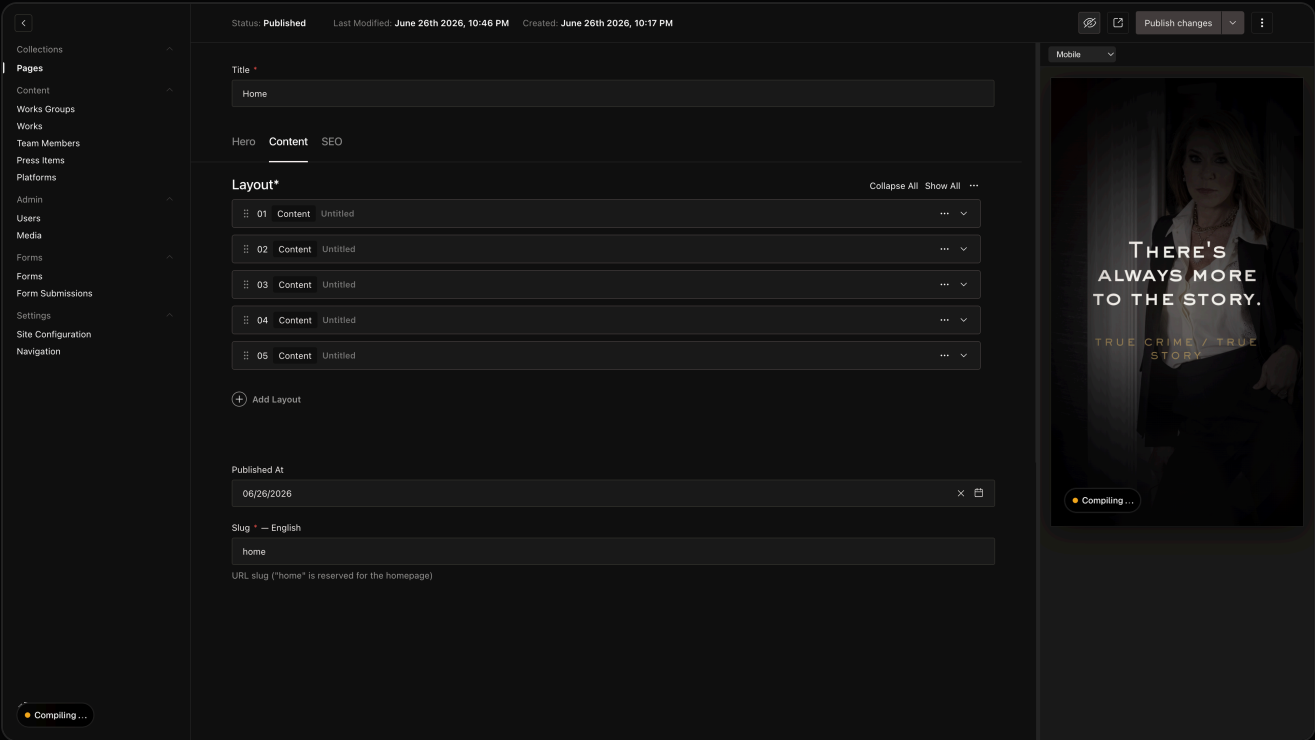

Hero (the big image at the top of the page)

This is the first thing visitors see. You can change:

- **Headline** — the main text
- **Subtitle** — smaller text underneath
- **Image** — the background photo
- **Type** — "Cinematic" for a dramatic full-screen look, "Page" for a simpler header, "Minimal" for text only

You can also set a **different image for mobile phones** (in the "Mobile override" section) — useful when a landscape photo doesn't look good on a vertical screen.

Content (the body of the page)

The page content is built with **blocks** — like building blocks you can stack. Each block is a section of the page. They start collapsed (folded up) to keep things tidy — click on one to open it.

The blocks you'll see most:

Block	What it does
Content	A text section — the most common one
Works Grid	Shows a grid of project posters (like on Our Work)
Works Scroll	A horizontal scroll strip of projects (like on Home)
Featured Work	Spotlights one project with a quote
Team Showcase	Shows team members with photos and bios
Press List	Lists your press coverage

Contact Info

Shows your email, address, and social links

Contact Form

The form visitors fill out to reach you

💡 Most of the time, you won't need to add or remove blocks — the pages are already set up. You can edit the content *inside* any block by clicking on it.

SEO (search engine stuff)

Controls what Google shows. Usually auto-generated — only change this if you need to.

Publishing and drafts

On the right side of the page editor, you'll see:

- **Publish changes** — saves your edits AND makes them live immediately
- Click the dropdown arrow next to it → **Save draft** — saves your work but does NOT make it live. The old version stays visible to visitors until you're ready to publish.

💡 Pages have a **live preview** on the right sidebar — you can toggle between Mobile and Desktop to see what your changes look like before publishing.

#0b0908

#080a0d

#0d0907

#090810

Typography

Brand Font

Sans Font

Serif Font

Sackers Gothic

Inter

Fraunces

"Sackers Gothic" is a custom local font. Other options load from Google Fonts.

This controls the colors and fonts across the entire website. The current palette was carefully designed for that dark, cinematic look.

💡 You probably don't need to change any of this. But if you want to tweak a color, just edit the code next to it (the # followed by letters and numbers). Each color has a small preview square.

Content

Text that's used in specific places:

- **About section** — the headline, subheadline, and paragraphs for the **About** page
- **UI Labels** — button text like "View", "Films", "Series"
- **Legal sections** — the text on the **Legal** page

SEO & Contact

SEO controls how your site appears on Google. The defaults are already set up.

Contact is where you set your email addresses, phone, and address. These show up on the **Contact** page and in the footer.

Social links — your Instagram, IMDb, LinkedIn, etc.

Navigation

Controls the menu at the top of the website and the footer text.

The screenshot shows the 'Navigation' configuration page in a CMS. On the left is a sidebar menu with categories like Collections, Pages, Content, Works Groups, Works, Team Members, Press Items, Platforms, Admin, Users, Media, Forms, Form Submissions, Settings, Site Configuration, and Navigation (which is selected). The main area is titled 'Navigation' and has 'Edit' and 'API' buttons. Below the title is a 'Header Items' section with a 'Collapse All' and 'Show All' toggle. It contains three items: 'Item 01' with label 'About Us' and href '/about', 'Item 02' with label 'Our Work' and href '/our-work', and 'Item 03' with label 'Development' and href '/development'. Each item has an 'Is External' checkbox which is currently unchecked. A red notification bubble at the bottom left of the sidebar says '1 issue'.

Header menu

Each menu item has:

- **Label** — the text people see (e.g. "About Us", "Our Work")
- **Link** — where it goes (e.g. /about, /our-work)
- **External** — check this if the link goes to a different website

You can **drag items** to reorder them. The order here = the order in the menu.

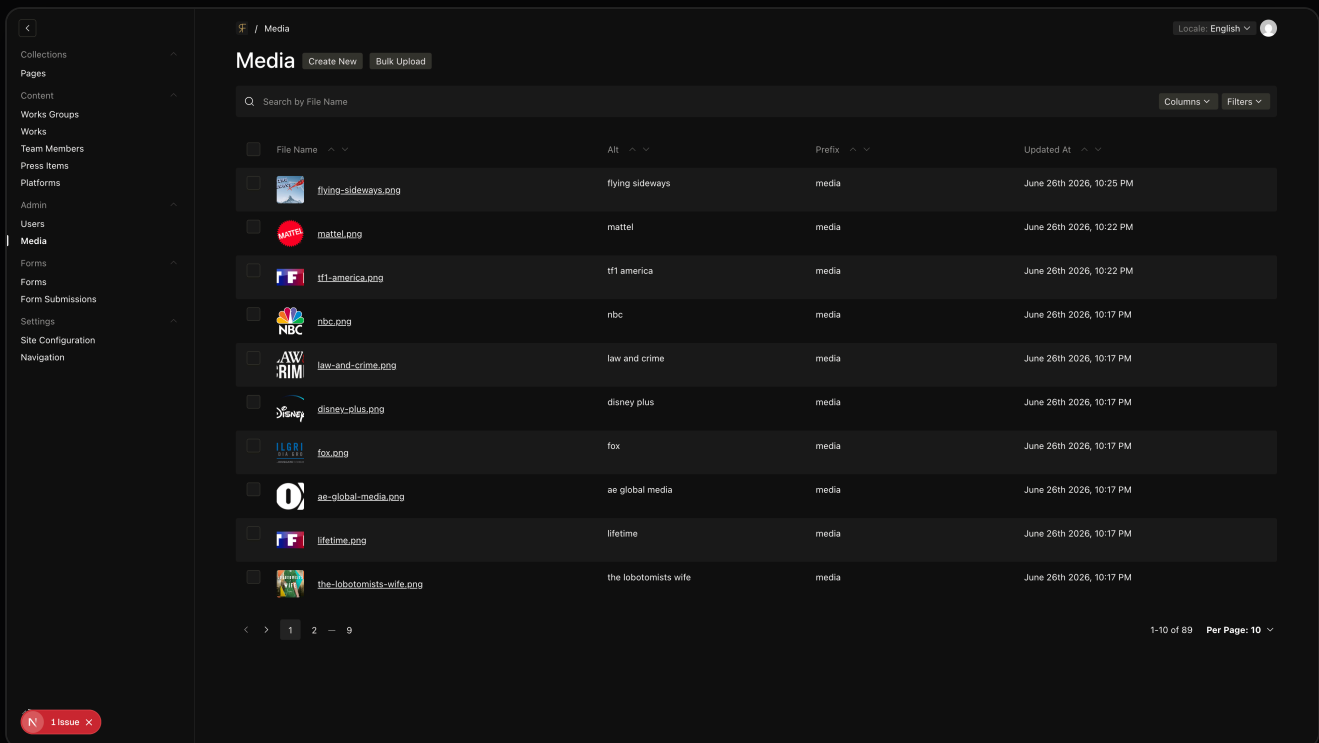

Footer

- **Legal Label** — the text for the legal notice link

- **Copyright Text** — the copyright line at the bottom of every page

Media

Your image library. Every image used on the website is stored here — posters, headshots, logos, hero images, everything.

When you upload an image, the system automatically creates several sizes (small for grids, medium for detail pages, large for hero sections). You don't need to worry about resizing.

Uploading images

- Click **Create New** to upload one image
- Click **Bulk Upload** to upload several at once
- Fill in the **Alt text** — a short description of the image (e.g. "Darkness Falls movie poster"). This helps with accessibility and Google search.

⚠ If you delete an image from the library, it will disappear everywhere it's used on the website. If you just want to swap an image, go to the place where it's used (e.g. the work entry) and change it there instead.

Users

Admin accounts — people who can log into this back office.

The screenshot shows the 'Users' management page. The sidebar on the left contains a navigation menu with the following items: Collections, Pages, Content, Works Groups, Works, Team Members, Press Items, Platforms, Admin, Users (highlighted), Media, Forms, Form Submissions, Settings, Site Configuration, and Navigation. The main content area has a header with 'Users' and a 'Create New' button. Below the header is a search bar labeled 'Search by Email' and buttons for 'Columns' and 'Filters'. A table lists the users with the following data:

	Email	Updated At	Created At	ID
☐	admin@rfa.dev	May 1st 2026, 11:00 AM	May 1st 2026, 11:00 AM	ID: 2
☐	romain@zedtech.fr	June 2nd 2026, 7:55 AM	May 1st 2026, 11:00 AM	ID: 1

At the bottom right of the table, it says '1-2 of 2' and 'Per Page: 10'. A notification at the bottom left of the sidebar says '1 issue'.

To add a new admin, click **Create New** and enter their email + password.

Forms & Submissions

Forms — currently there's one: the "RFE Contact" form on the **Contact** page. It has Name, Email, and Message fields.

Form Submissions — every time someone fills out the contact form, their message is saved here. Check this to see who's reaching out.

Common Tasks

"I have a new project to add to the website"

1. **Upload the poster:** Go to **Admin** → **Media** → **Create New** → upload the image → fill in alt text → **Save**
2. **Create the work:** Go to **Content** → **Works** → **Create New** → fill in title, year, poster, category, tags, credits → **Save**
3. **Add it to the right group:** Go to **Content** → **Works Groups** → open the group where it should appear (e.g. "Our Work") → **Add Work** → select your project → drag to position → **Save**

"I need to update a project's description or poster"

1. Go to **Content** → **Works**

2. Click on the project name
3. Edit what you need
4. Click **Save**

"We got new press coverage"

1. Go to **Content → Press Items → Create New**
2. Fill in the headline, source (e.g. "Deadline"), date, and URL
3. Click **Save**

"I want to change the order of projects on a page"

1. Go to **Content → Works Groups**
2. Open the group that controls the page you want to change
3. Drag projects up or down
4. Click **Save**

"I want to update our contact email"

1. Go to **Settings → Site Configuration**
2. Click the **SEO & Contact** tab
3. Update the email address
4. Click **Save**

"I want to add a link to the header menu"

1. Go to **Settings → Navigation**
2. Click **Add Item** at the bottom of the Header section
3. Fill in the label and link
4. Drag it to the right position
5. Click **Save**

"I want to change the hero image on a page"

1. Go to **Pages**

2. Click on the page
 3. In the **Hero** tab, click the **X** next to the current image
 4. Click **Choose from existing** to pick a new one, or upload a fresh image
 5. Click **Publish changes**
-

How to Undo a Mistake

On a page (Home, About, Our Work, etc.)

Pages keep a history of every change. If you mess something up:

1. Open the page
2. Click **Versions** (top right, next to "Edit")
3. You'll see a list of every saved version with dates
4. Click on a previous version to preview it
5. Click **Restore this version** to go back to it

On other content (Works, Team Members, Press Items, etc.)

These don't have version history, but changes are simple to undo — just edit the field back to what it was and click **Save**.

"I accidentally deleted something"

If you deleted a work, team member, or press item, you'll need to recreate it. There's no trash or recycle bin — so be careful with the delete button!

💡 If the website looks completely wrong, there's a **Content Reset** button on the Dashboard that resets everything to the default content. Use this as a last resort only.

How Everything Connects

You upload IMAGES to the Media library

↓

You create WORKS (with posters, credits, descriptions)

↓

You organize works into WORKS GROUPS (like playlists)

↓

PAGES use those groups to display works in grids and scroll strips

↓

The public WEBSITE shows it all at rohmfeiferentertainment.net

Other pieces:

- **Team Members** automatically appear on the About page
- **Press Items** automatically appear on the Press page
- **Platforms** show up as "Seen On" logos on individual works
- **Site Configuration** controls the brand, colors, and contact info everywhere
- **Navigation** controls the header menu on every page

Quick Reference

I want to...	Go to...
Add a new project	Content → Works → Create New
Put a project on a page	Content → Works Groups → open the right group → Add Work
Change project order	Content → Works Groups → drag items
